**BSEE - essential reading for all
building services professionals**

BSEE MEDIA INFORMATION

BSEE is essential reading for building services professionals and specifiers, covering a host of topics both in the magazine – which has a certified ABC certified printed circulation of 16,490 (Jan – Dec 2016). We also boast 19,181 digital subscribers (publisher's data).

From the latest news pages, to technical features and industry comments from building services experts, BSEE covers a host of topics, including, energy supply - gas, electricity and renewable sources, heating and ventilation, water treatment, drainage and plumbing, daylighting and artificial lighting, building controls and building energy management systems, escalators and lifts, harnessing solar, wind and biomass energy, communications, telephones and IT networks, security and alarm systems, fire detection and protection, air conditioning and refrigeration,

facade engineering, training and recruitment and facilities management.

The What's New feature and Classified are important sections of BSEE, bringing you the latest innovations and services for this buoyant market.

Regular supplements take an in-depth look at topics that are at the heart of the building services industry, from building services in educational facilities, to health & safety, hotel & leisure services, communal living, boilers & hot water and much more.
